The committee shall have the right to refuse to approve any such plans or specification or grading plans, shall have the right to take into consideration the use and suitability of the proposed building or structure and of the materials with which it is to be built, the site upon which it is proposed to erect the same, the harmony thereof with the surroundings and the effect of the building or other structures planned on the outlook from the adjacent neighboring property, and may in its discretion allow or grant exceptions to these covenants when in its opinion it is advisable to
